## NORWICH BULLETIN

Willimantic Office  
31 Church Street Telephone 1062

Superintendent of Schools Robert A. Chase has compiled the returns of the enumerators of school children in the town of Willimantic which were taken recently. He announced Wednesday that the returns show an increase of 118 children enumerated over the number of last year. The number for this year is 2392 and in 1921 it was 2274. The girls were 32 in the first district, 66 in the second district and 29 in the Willimantic district. It is shown by the figures that 247 children are listed as not attending any school or close to 15 per cent. of the entire enumeration. This is mostly due to the crowded conditions of the public schools of the city and St. Joseph's parochial school.

The grammar schools of the city and town cannot accommodate all of the children of school age if all attended, and the children of four or five years are greater in number than those of ages beyond. Children four years of age cannot be admitted to either St. Joseph's or St. Mary's parochial schools. Over one-half of the 215 children who are not attending schools are four or five years of age.

According to the statistics by districts taken from the enumerators' returns it is shown that in the first district 642 children attend the public schools, 247 the parochial schools and 15 not attending. In the second district 625 attend the public schools, 880 the parochial schools and 22 are not attending. In the outlying districts 270 children attend the public schools, 46 the parochial school and 70 are not attending.

## JEWETT CITY

The D. A. R. benefit dance at the town hall in Jewett Saturday evening proved a most enjoyable occasion. More than 100 attending are promised another of the same kind as added attraction. Prof. F. H. Gilbert was the promoter with Driscoll's orchestra of four pieces furnishing excellent music.

Many Jewett City people, friends of Elmer Lewis of Central Village, were sorry to learn of his death as told in Wednesday's Bulletin. One year ago people from Jewett City were taking trips up a few miles further north to see the devastation wrought by the ice storm. On that night this section escaped by the small margin 15 to 18 miles. The temperature here stood at 23 degrees, thus saving the town's beautiful trees. In the section around Putnam, the mercury at 21, there is plenty of evidence today to show the damage done by only two degrees lower temperature.

Many Jewett City people are appreciating the activity of Fire Marshal H. P. Prior in his desire and determination to prevent any possible fire to which the ounce of prevention may be applied.

In accordance with the law of the state the fire marshal has the right to at any and all times enter any building in the borough, and examine its heating or cooling apparatus. He has the power to order changes in construction, and combustible material removed. In his judgment, the public safety demands it. He may require a test of kerosene in any store, at any time, to see that it stands the 119 Fahrenheit test. Moreover, every person who shall violate any of the fire marshal in the discharge of duties imposed on him by the borough ordinances shall pay a penalty of \$100.

As winter approaches, with its added liability of fire, reports of evident fire menaces may be made to Mr. Prior and the same will receive his early and careful attention.

## Is Your Heart in the Right Place?

"Palpitation" or "fluttering" of the heart and shortness of breath are often thought to be the result of some organic heart trouble, when really these distressing symptoms are caused by constipation and indigestion which inflate the stomach with gas, causing it to crowd the heart out of position and preventing its normal action.

SANALT the Sensible Tonic, gradually and surely overcomes this bad condition of the stomach and bowels, and thus stops the accumulation of gas in the stomach and intestines, relieving and preventing much so-called "heart trouble."

Since it was first prepared by a well-known New England physician over 100 years ago, SANALT has been constantly and successfully used by doctors and the public. Don't confuse it with cathartics. SANALT is entirely different—a reconstructive tonic compounded from vegetable alternatives, and entirely free from opiates, narcotics, or other harmful drugs. The following letter tells how it helped an elderly clergyman, Rev. Granville Pierce, of Warwick, Mass., who writes:

"I had been suffering nearly a year from nervous exhaustion, which in its development had seriously affected the nerves of the stomach and bowels. There was a general depression, with irregular heart action. I was exceedingly constipated, suffered intensely from flatulence, or gas in the stomach, and my appetite had almost deserted me. Two months spent at the seashore brought an improvement, but when I returned to Warwick, in the latter part of August, my trouble soon became as bad as ever. I commenced taking Sanalt early in October. There was an almost immediate improvement. In two weeks I felt decidedly better. The whole tone of the system had improved; appetite was better and I felt considerably stronger. As an alternative tonic and appetizer, I have never known the equal of Sanalt."

You can get SANALT, or the other famous Winsol products, at any drug store. For Winsol preparations are one line of trade-marked proprietary remedies sold by both Winsol Agents and non-agent druggists. No need to accept substitutes. Any druggist can get Winsol remedies for you through his jobber.

NEUROPATHIC DROPS, the great emergency medicine, and CERIZANE BALSAM, for coughs, are two Winsol remedies that should be kept in every home. Ask your druggist about them.
